He noted that some new work that will be starting at OASIS. OASIS has stopped its relationship with Chang Feng Alliance as of 1 July 2011 - work is underway to find an alternative business development relationship. 20. Additional Staff Reports

Jamie Clark provided an update on liaison relationships of OASIS with other organizations, see http://lists.oasis-open.org/archives/board-agenda/201107/msg00003.html. He noted the importance of NTSIC and the importance of OASIS to this effort.

21. Board Director Risks and Responsibilities Orientation
Stephen Honig of Duane Morris OASIS external legal counsel provided the Board an orientation related to board governance and risks and responsibilities associated with serving as a Director on the OASIS Board. Duties of Boards are the same for non-profits and profit companies, including the Duty of Care and Loyalty. The first indicates active attention and participation, the second acting in the interest of OASIS. The legal view of how Board of Directors work have changed over the last decade given the emergence of Sarbanes-Oxley requiring reporting. The Dodd-Frank act in 2010 also increased disclosure requirements. The revised IRS form 990 is a detailed report of financial and other operations. It has a checklist related to corporate governance.

Stephen Honig noted that the Caremark standard requires the Board to ensure that the management of the corporation provides appropriate supervision. First, make sure management has established systems to ensure proper operation of staff and operations; second that Board inquires time to time that systems are adhered to.

Stephen Honig suggested handing Enterprise risk management (ERM) may require a Board committee to review work across business silos. Risk management should be a formal agenda item and reviewed periodically, including reports from management (once a year probably adequate).

Stephen Honig noted that OASIS has a conflict of interest policy, and should note that on the 990 form going forward. He also indicated that having an ethics policy is important and that it is good that the OASIS Governance Committee is working on this.

Stephen Honig suggested that OASIS have a written whistleblower policy. OASIS is already doing what is required to a large degree, so it is reasonable to create the policy. This policy may be applicable to those outside of the organization as well as members of the organization.

D&O insurance covers the organization and individual director liabilities. If it has a limit, must cover cost of claim and cost of defense and payment of damages. Two questions - are appropriate risks covered and is the amount sufficient? Stephen Honig suggested reviewing this with underwriter and carrier. Tail coverage is important to enable making claims for earlier events; this is an item to check about this coverage. Individual directors may ask for enhanced Side-A coverage from the D & O insurer if they wish additional coverage. Many standard personal umbrella policies may also offer director coverage, but require disclosure. Directors may also obtain portable board coverage.

Stephen Honig summarized the recommendation of the need for an ethics policy, whistleblower policy and practice of Board review of 990. He will send a sample policy.

Stephen Honig commented on the Bylaws and noted a change regarding running meetings according to Roberts Rules might be appropriate to not require strictly running according to those rules. He noted the OASIS anti-trust policy possibly should explicitly outline those items that are of concern (e.g. pricing etc) and also note EU anti-trust law. What would be reasonable to list bullets for US, also for EU, and also reference contacting OASIS Internal Counsel with concerns.

Privacy considerations could be included in the ethics and anti-trust policy.

Board members were provided the "Not for profit Board member handbook", see http://www.grantthornton.com/staticfiles/GTCom/Not-for-profit%20organizations/Board%20member%20handbooks/
The Board found the External Counsel session useful and considered having an annual session perhaps rotating with insurance agent, auditors and external counsel.

<Robert Fineman, Tony Fitzpatrick, Stephen M. Honig left the meeting>

The Board discussed the AMQP Member Section Rules of Procedure submitted for approval. Martin Chapman gave an update on TAB activity, see slides http://www.oasis-open.org/apps/org/workgroup/staff-board-tab/email/archives/201107/msg00000.html. The TAB noted that it would be good to provide an indication of issue resolution to those who enter issues on the web site feedback form. Consideration of the 15 day second review when extensive changes to content is made will be considered in the Process Committee.

26. Process Committee Report

Jeff Mischkinsky provided an update on the Process Committee activity, noting the issue list and soliciting new issues see http://lists.oasis-open.org/archives/board-agenda/201107/msg00005.html.

The Board reviewed the PAS submission process, identifying the issue of who represents OASIS in the JTC 1 Ballot Resolution Meeting, how feedback is handled, and whether there are any IPR issues. Use of the OASIS comment mechanism might be an issue since that implies a license obligation. Such issues may require discussion related to the Liaison Policy, TC Process and IPR Policy.
